ECHO INSTITUTE FOR HEALTH has one purpose: to be there for others. When expert medical care is needed ECHO provides free, objective, and personalized medical referrals and counseling with warmth and compassion. Our medical counselors guide distraught families from around the world to doctors and hospitals uniquely suited to their needs. We often act as a liaison for patients and their families. ECHO'S offices field over 150 calls each day-40,000 calls each year!

Echo's annual budget is approaching \$1,000,000. Patients do not pay for our services, and we do not receive any government funds. We rely solely on community support.

Help us as we continue guiding families through the health care maze.
